Chapter 1 of 1

In each there comes a time of self discovery. To Awaken is to open your mind to endless dreams.

Through Blackened Skies, and demon's eyes

Feel the need, the call to feed.

The burning fires, of lust's desires.

With cold lips, and fingertips.

Blood once warm, now an evil charm.

Life drains away, not another day

Nor greets the dawn, the evil spawn.

A bed of earth, a kingdom's worth.

On silent night, a fatal sight

I wait for you, you seek me too

Forever immortal, through devil's portal

In each there comes a time of self discovery. To Awaken is to open your mind to endless dreams.

Dark Blessings,

Blackwolf Shadow
